- **Stakeholder & Relationship Management**
- **Data & Performance Analytics**
- **Digital Marketing & Engagement**
- **Project & Program Management**
- **Sports Marketing & Fan Engagement**

DEMONSTRATED

NILG.AI

June 2026 – Present
AI strategy and data science consultancy applying artificial intelligence to marketing and business growth.
Project Manager

- **Digital Marketing & Engagement:** Manage GEO (Generative Engine Optimisation) projects and social media communication strategies for client accounts, using AI-driven tools to strengthen brand visibility across AI-powered search and social channels.
- **Data & Performance Analytics:** Lead lead-generation research and implementation using CRM systems and AI automation tools, structuring lead data to support client pipeline growth.
- **Project & Program Management:** Coordinate end-to-end delivery of AI-marketing projects, from research and lead insertion to implementation, aligning client goals with automation capabilities across the agency's project pipeline.

Deloitte Business Consulting

Sep 2023 – Jun 2026
Global professional services firm providing strategy, marketing and data consulting to clients across multiple industries.
Marketing and Strategy Consultant

- **Digital Marketing & Engagement:** Led data-driven marketing initiatives that improved digital engagement and insight accuracy across client channels.

- **Data & Performance Analytics:** Built executive dashboards used weekly by product, marketing and communication teams to guide decision-making.
- **Strategic & Business Analysis:** Conducted Voice-of-Customer and behavioural analysis to identify optimisation opportunities across client channels.
- **Stakeholder & Relationship Management:** Facilitated cross-functional workshops to align stakeholders around positioning, insights and strategic priorities.

Deloitte Business Consulting

Sep 2022 – Aug 2023
Global professional services firm providing strategy, marketing and data consulting to clients across multiple industries.
Marketing Analyst

- **Strategic & Business Analysis:** Analysed customer, market and competitor data to support strategic decision-making for client engagements.
- **Data & Performance Analytics:** Developed reporting frameworks that integrated multi-channel data for ongoing performance monitoring.
- **Digital Marketing & Engagement:** Supported digital performance analysis across client websites, portals and social channels.

Banco de Portugal (Portuguese National Bank)

Jul – Oct 2021
Portugal's central bank and financial supervisory authority.
Internship – Economic Analysis

- **Data & Performance Analytics:** Collected, validated and interpreted economic and financial data to support institutional decision-making and analysis.
- **Strategic & Business Analysis:** Ensured methodological rigour and data quality across reporting and decision-support materials, strengthening the credibility of institutional analysis.

RELEVANT PROJECTS

Stakeholder Management Strategy
Assessed key stakeholder engagement objectives, priority activities and preferred platforms, then built a detailed Stakeholder Engagement Action Plan, identifying risks and opportunities that strengthened institutional relationships and supported long-term account development.

Customer Experience Digitalisation
Designed the full customer experience, including personas, segmentation and competitive benchmarking, and contributed to predictive models that helped achieve **87.8% guest satisfaction**.

Website Redesign
Assessed usability, structure and content effectiveness to identify optimisation opportunities, growing the resulting platform to **1.2M monthly organic visitors** and a community mailing list of over 500 contacts.

GEO & AI Marketing Automation
Implemented GEO (Generative Engine Optimisation) strategies and built AI-driven automations for social media content, website updates and campaign execution, strengthening brand visibility across AI-powered search and digital channels.

CRM Structuring & Pipeline Analysis
Structured CRM systems and led end-to-end lead research and insertion, combined with customer pipeline and funnel analysis to sharpen data-driven marketing decisions and pipeline visibility.

PMO – Smart Destination
Acted as Project Management Office for a regional Smart Destination initiative, coordinating communication, timelines and alignment across stakeholders and supervisory entities; the project became a reference model for the regional framework.

Fashion District Feasibility Study
Conducted a strategic and financial feasibility assessment, including trend analysis, international benchmarking, financial scenarios and risk analysis, to support an investment decision.
